

EBRIMA SINGHATEH — Full-Stack Developer (Laravel / React)

3150916

ebrimasinghateh67@gmail.com

GitHub: <https://github.com/singhateh3>

PROFILE

Full-stack developer specializing in building scalable backend systems, RESTful APIs, and modern web applications. Strong focus on Laravel backend architecture, database design, and authentication systems. Experienced in developing production-style applications such as management systems, APIs, and business tools.

Currently expanding frontend expertise using React and modern JavaScript tooling to deliver complete end-to-end solutions.

TECHNICAL SKILLS

Backend:

PHP, Laravel, RESTful APIs, Laravel Sanctum, Authentication, MVC Architecture

Frontend:

React, JavaScript (ES6+), Axios, HTML5, CSS3, Tailwind CSS

Database:

MySQL, Relational Database Design, Query Optimization

Tools & Workflow:

Git, GitHub, Postman, Vite, VS Code

PROJECTS

Library Management System (Laravel)

- Built a full-featured system for managing books, borrowing, and returns
 - Implemented role-based access control (Admin, Librarian, Student)
 - Designed relational database structure and borrowing workflows
 - Developed secure authentication and request validation
-

Invoice Management System (Laravel API + React)

- Built RESTful API for invoice and client management
 - Implemented authentication using Laravel Sanctum
 - Designed CRUD operations for invoices, clients, and payments
 - Integrated frontend using React and Axios for dynamic data handling
-

Blog API (Laravel)

- Developed scalable REST API for blog management system
 - Implemented user authentication and post relationships
 - Built endpoints for posts, comments, and categories
 - Followed clean architecture and reusable controller structure
-

Browser Extension Manager (JavaScript)

- Built UI-based system to manage browser extensions
 - Implemented filtering (active/inactive) and toggle functionality
 - Created interactive frontend logic using vanilla JavaScript
-

EDUCATION

University of The Gambia

Bachelor of Economics (Undergraduate)

Jasseh Code Camp

Full-Stack Web Development Training

STRENGTHS

- Strong backend development and API design skills
- Excellent debugging and problem-solving ability
- Fast learner with strong adaptability to new technologies
- Comfortable working independently and in team environments
- Focused on building scalable and maintainable applications
